Re: No. 25-286, InSinkErator, LLC v. Joneca Company, LLC, *et al.*

Dear Judges Berzon, Higginson, and Sung:

During oral argument on Friday, I made an analogy between garbage disposers and blenders and stated (at 3:15 of the video recording) that “blenders are sold based on an input number, an input wattage.” Judge Higginson asked for record support, and I replied that I would provide the excerpt. Following argument, on closer review, I realized that I was recalling information that was not part of the appellate record. The record excerpt I had in mind makes the blender analogy but does not state that blenders are marketed to consumers based on an input wattage. *See* 2-ER-083 (McCormick Decl. para. 44) (noting that the UL standard for blenders, like the UL standard for garbage disposers, calls for measuring input current). I regret my error and hope that this clarifies the record.

Sincerely,

A handwritten signature in blue ink, appearing to read "Trenton H. Norris".
